## M51-X-PRO

### Our pro with particularly wear-resistant teeth

- For sawing processes using MQL
- At high cutting speeds and feeds
- For cutting steel beams, profiles and pipes
- Efficient use cutting mixed materials

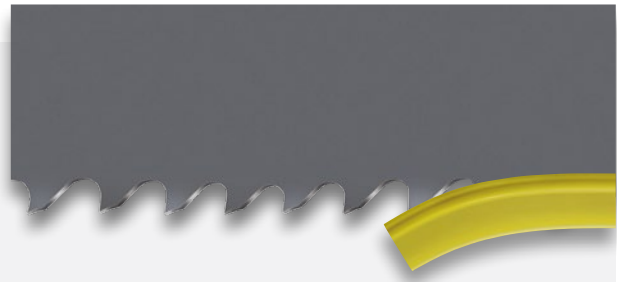

Our new article group 557 M51-X-PRO complements our bi-metal profile line as a particularly powerful further development of the proven Allrounder 457 M42-X-FIT.

The extremely wear-resistant teeth cut demanding workpieces such as beams and pipes reliably and economically. Powerful at high cutting speeds and feeds. Precise results in sawing processes using Minimum Quantity Lubrication (MQL).

The applications of X-FIT and X-PRO saw bands in mixed materials reduce set-up costs, minimize storage costs and increase your productivity.
